EXPERIMENT 5

NAME:NITHYA SHREE S

ROLL NO:240701367

Task Analysis:

Task Analysis is the process of breaking down a user's interaction with the Movie Ticket Booking System into smaller steps to understand how users book tickets easily and efficiently. It helps identify user needs, difficulties, and areas for improvement.

Key Aspects of Task Analysis:

• Understanding how users search and book movie tickets.
• Identifying the sequence of actions required to complete ticket booking.
• Analyzing possible user issues (seat availability, payment failure, etc.).
• Defining system requirements to improve user experience.

User Flow:

User Flow is a visual representation of how users navigate through the Movie Ticket Booking System to complete ticket booking.

Key Aspects of User Flow:

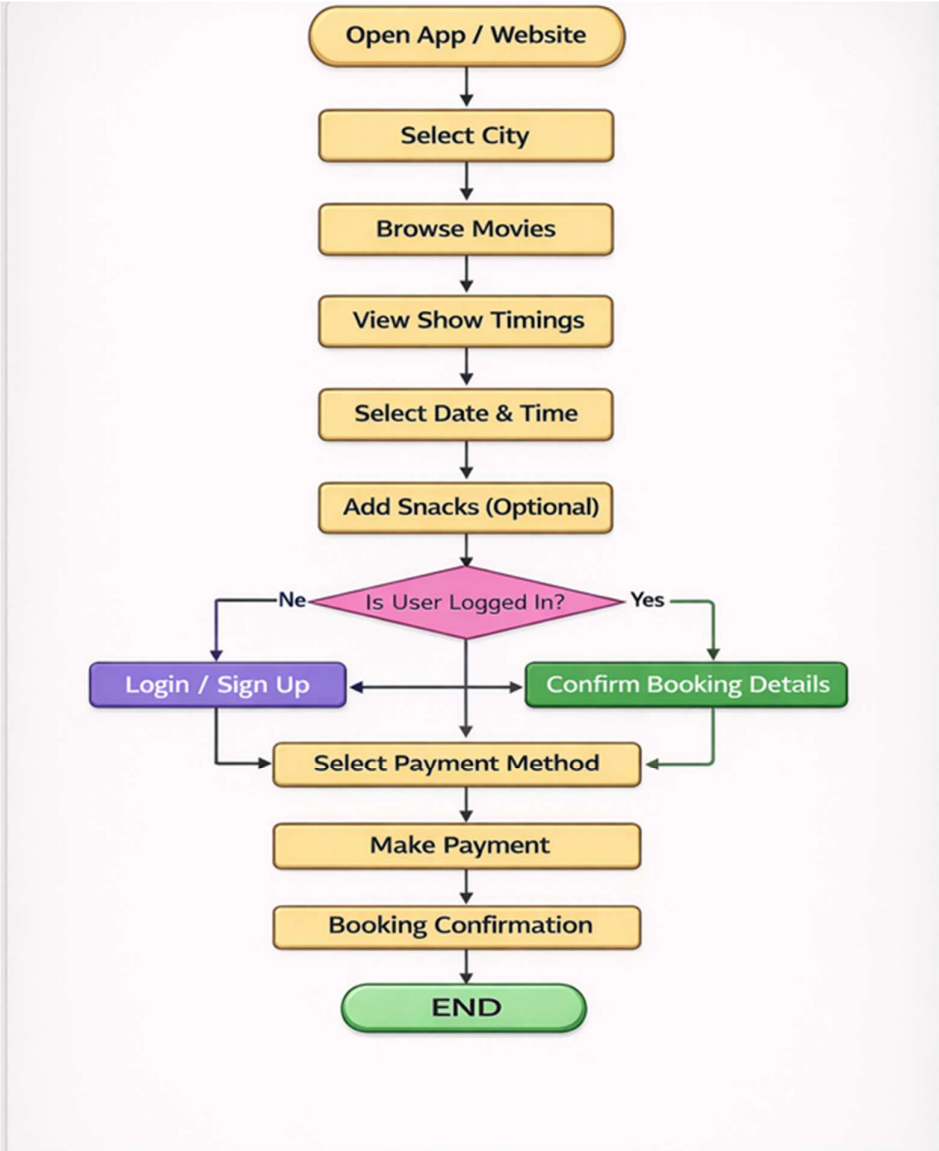
• Shows decision-making paths (e.g., what happens if payment fails?).
• Maps different navigation options (search by movie, theatre, or city).
• Displays how users move between screens.

User Flow for Movie Ticket Booking System:

Start → Open App/Website → Login/Register → Select City → Browse Movies →
Select Movie → View Show Timings → Select Date & Time → Select Seats →

Add Snacks (Optional) → Proceed to Payment → Choose Payment Method →
Payment Confirmation → Ticket Confirmation → Download/Show E-Ticket → End

User Flow for an Movie Ticket Booking System:



Step-by-Step Explanation:

Step 1: Start

• User opens the Movie Ticket Booking application or website.

Step 2: Login or Register

• Existing users log in.
• New users register with email/mobile number.

Step 3: Select City

• User selects their location to view nearby theatres.

Step 4: Browse Movies

• User can browse currently running movies.
• They can filter by language, genre, or rating.

Step 5: Select Movie

• Clicking a movie opens detailed information (cast, duration, rating).

Step 6: Select Date & Show Time

• User selects preferred date and show timing.

Step 7: Select Seats

• Available seats are shown.
• User selects desired seats.
• If seats are unavailable, user must choose different seats.

Step 8: Add Snacks (Optional)

• User can add food and beverages to the order.

Step 9: Payment Process

• User selects payment method:

Credit/Debit Card

UPI

Net Banking

Wallet

Step 10: Payment Confirmation

- If payment is successful → Ticket is generated.
- If payment fails → User retries payment.

Step 11: Ticket Confirmation

- Booking details are displayed.
- E-ticket is generated with QR code.

Step 12: End of Process

- User downloads ticket or shows QR code at theatre.
