

EXPERIMENT 7

NAME: NITHYA SHREE S

ROLL NO:240701367

AIM:

To design different mobile app layouts with various colour schemes and evaluate user feedback based on aesthetics and usability using GIMP.

PROCEDURE:

Step 1: Create Layout

- Open GIMP
- Set canvas size: **1080 × 1920 pixels**
- Divide into:
 - Header (Title: *Create an Account*)
 - Input Fields section
 - Button section
- Footer (Login option)

Step 2: Add UI Components

- Add text: *Create an Account*
- Add input fields:
 - Username or Email
 - Phone Number
 - Password
 - Confirm Password
- Add button: **Create Account**
- Add social login icons:
 - Facebook
 - Apple
 - Google
 - X (Twitter)
- Add footer text:
I Already Have an Account Login

Step 3: Create Colour Variations

Layout 1 – Pink Theme

- Soft pink background
- Clean and attractive UI
- Smooth and user-friendly appearance

Layout 2 – Red Theme

- Bright red background
- Bold and eye-catching
- High visibility but slightly intense

Layout 3 – Blue/Gradient Theme

- Light gradient (blue/purple)
- Professional and modern look
- Balanced and easy to read

USER FEEDBACK:

Layout 1 (Pink)

- Attractive and soft design
- Good for general users
- Suggestion: Improve contrast

Layout 2 (Red)

- Very eye-catching
- Slightly harsh for long usage
- Suggestion: Reduce brightness / saturation

Layout 3 (Blue/Gradient)

- Clean and professional
 - Easy readability
-
- Well-balanced design
 - Most preferred by users

FINAL RECOMMENDATION:

Selected Layout: Layout 3 (Blue/Gradient)

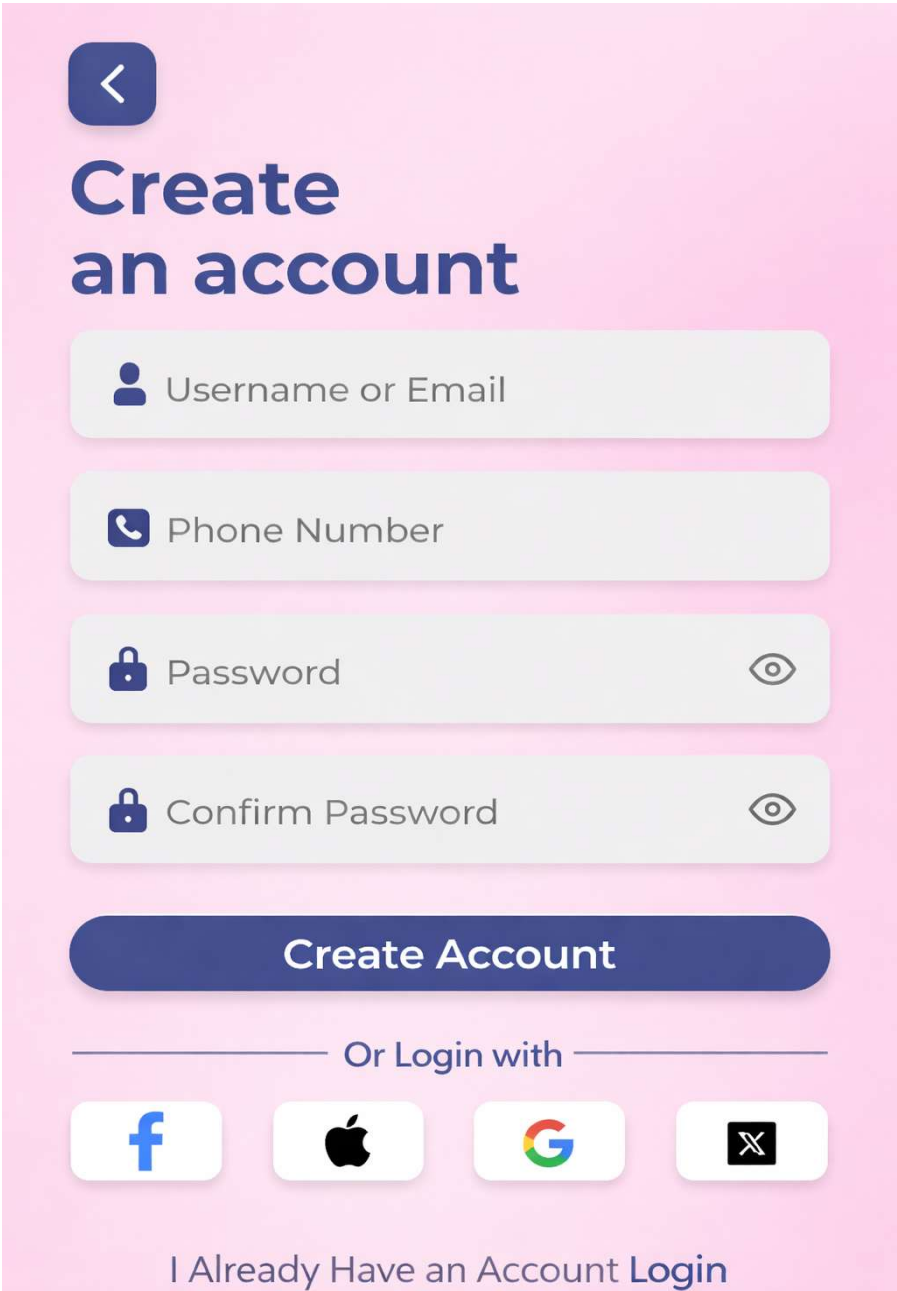

Reasons:

- Better usability
- Modern appearance
- Comfortable for user
- Good colour balance

CONCLUSION:

Different colour schemes affect user experience. Among all designs, the gradient layout provides the best combination of usability and visual appeal.
